de-l'Île-de-Montréal*

Québec 

Did you know?

**In Canada,
a stroke happens every 9 minutes.**

**For every minute delay in treating a stroke,
the average patient loses 1.9 million brain
cells.**

**Do you know
the symptoms of stroke?**

Face is it drooping?
Arms can you raise both?
Speech is it slurred or jumbled?
Time to call 9-1-1 right away.

Act **F A S T**. Lifesaving treatment
begins the second you call 9-1-1.
