Minutes:

Dr. Miner referred to the minutes from the December 21st meeting which were accepted as presented.

Matters arising:

2.1 CRDS

Dr. Miner noted that the CRDS clinics seem to be working well for certain specialties except Orthopedics and Neurology. She explained some of the problems that have been occurring.

2.2 Access files

Dr. Miner referred to the Ministry's plan to fund three additional operating rooms. Negotiations are continuing between the hospital and the Government for more beds and PEMS to accommodate this new plan. Dr. Chaytor outlined some of the issues including the surgical wait list and shortage of nurses.

2.3 CRO

Dr. Miner reported that the CRO situation seems to be affecting the entire Island of Montreal; the Ministry is reviewing this problem. She warned that although hand-hygiene among health-care providers has improved, everyone should continue to be diligent and conscientious.

2.4 Predicting Discharge on Admission

Dr. Miner noted that this is a timely topic; she sent an email to all the chiefs explaining the process since it is not being followed properly. She reiterated that the Ministry would like every patient to have a predicted discharge date within 48 hours of admission. There was a lengthy discussion about some of the issues surrounding discharges.

2.5 MDs with no PEM

Dr. Miner mentioned that she would be sending the chiefs a list of names of physicians in their department that do not have PEMS and together they will have to come up with a solution.

The meeting adjourned at 18:00.
