

Notes by the dozen

JGH Jazz marked its 12th big season in late June and early July with a free series of rocking, bluesy, swinging, jazzy, open-air concerts for patients, visitors and staff in the picnic area near the Côte-des-Neiges entrance. Organizer and JGH music therapist Bryan Highbloom (second from right) told the audience that JGH Jazz celebrates "the idea that music plays a major healing role in all societies and cultures."
