Assistant Professor (Clinical)

Faculty of Medicine - Department of Medicine, Division of Dermatology, Jewish General Hospital (JGH)

Position Description

The Department of Medicine of McGill University invites applications for a full-time position as a member of the Contract Academic Staff (Clinical) as a clinician-scientist at the rank of Assistant Professor. The successful candidate will also be appointed to clinical practice in the Department of Medicine, Division of Dermatology at the Jewish General Hospital. The position is expected to begin in summer-fall 2021.

The Department of Medicine is a leader in academic medicine, our educational and research missions support excellent and innovative clinical programs across our teaching hospitals. The Jewish General Hospital is one of McGill’s major teaching hospitals affiliated with the Faculty of Medicine at Canada’s internationally renowned McGill University, located in the vibrant and multicultural city of Montreal, in the province of Quebec.

Job Duties

As a clinician-scientist it is expected that the candidate will apply for external operating and personal support from the appropriate funding agencies (i.e. CIHR, FRQ-S). Should the candidate be successful securing additional sources of funding, the candidate will be expected to devote a minimum of 50%-75% time to research. Startup funding including a research stipend may be available to a suitable candidate allowing for protected research time. The candidate is expected to establish a basic science or translational research program in cutaneous oncology. The candidate will provide clinical services including rotation on clinical teaching units, in-patient consultation as well as out-patient services.

The candidate is also expected to be actively involved in all aspects of McGill’s academic mission (teaching and supervision of clinical trainees, research and involvement in academic and administrative committees) and will be expected to demonstrate a commitment to equity, diversity and inclusion in these activities.

Qualifications and Education Requirements

Candidates must hold an MD degree and must have completed subspecialty training in Dermatology and be Royal College certified (or equivalent), and be eligible for licensure in Quebec and certified by the Collège des Médecins du Québec, prior to the expected start date.
Candidates must have completed advanced training (PhD degree or research-oriented post-doctoral fellowship) pertinent to dermatology focusing on cutaneous oncology, or basic science processes applicable to these fields. The candidate must demonstrate a high level of scientific productivity, evidenced by recent publications, prior success in funding competitions and research-related distinctions/awards.

All candidates must be fluent in English with a working knowledge of French.

*McGill University is committed to equity and diversity within its community and values academic rigour and excellence. We welcome and encourage applications from racialized persons/visible minorities, women, Indigenous persons, persons with disabilities, ethnic minorities, and persons of minority sexual orientations and gender identities, as well as from all qualified candidates with the skills and knowledge to engage productively with diverse communities.*

*At McGill, research that reflects diverse intellectual traditions, methodologies, and modes of dissemination and translation is valued and encouraged. Candidates are invited to demonstrate their research impact both within and across academic disciplines and in other sectors, such as government, communities, or industry.*
McGill further recognizes and fairly considers the impact of leaves (e.g., family care or health-related) that may contribute to career interruptions or slowdowns. Candidates are encouraged to signal any leave that affected productivity, may have had an effect on their career path. This information will be considered to ensure the equitable assessment of the candidate’s record.

McGill implements an employment equity program and encourages members of designated equity groups to self-identify. It further seeks to ensure the equitable treatment and full inclusion of persons with disabilities by striving for the implementation of universal design principles transversally, across all facets of the University community, and through accommodation policies and procedures. Persons with disabilities who anticipate needing accommodations for any part of the application process may contact, in confidence, this email or phone at 514-398-2477.

All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadians and permanent residents will be given priority.
