EVALUATION OF PAST ACADEMIC YEAR:

a) Faculty:
There have been no changes during the past year.

b) Co-operation:
We have combined Rheumatology Immunology Rounds on Tuesday afternoons from 3:30 to 5:00. We have an Allergy Clinic 4 ½ days a week. There is a Nasal Clinic run jointly by Allergy and ENT every one to two weeks specializing in allergic sinusitis. There is an Allergy and Immunology Journal Club every Friday morning at the Montreal General Hospital. There are 5,000 out patient visits per year at the allergy clinics. There is also a consult service for in patients on an ongoing basis.

c) Teaching Activities:
All teaching is done by Dr. Small including attending on the CTU, office teaching with residents and students, lectures within the Department and outside the Department including the University. I participate in the undergraduate teaching program in Immunology at McGill and usually lecture at the Thursday night lecture series at the Medical School. I participate in a number of teaching programs both at the Provincial and National level.

Teaching Program at McGill:
- courses taught: Small group immunology.
- total number of lecture hours: 8.
- total teaching hours: CTU: 150, OPD: 100, Consults: 25.

d) Accomplishments:
- Co-Director – National Guidelines for Upper Airway Diseases.
  Sponsored by the Canadian Society of Allergy and Clinical Immunology and the Canadian Otolaryngeal Society.
- Examining Board- Allergy and Immunology - Quebec
- I have participated in many symposia and other educational form specifically involving rhinosinusitis in the development of Canadian guideline in this area. I have been involved in multiple seminars with both specialists and family physicians in the area of allergy and clinical immunology.

f) Objectives and Priorities:
There will be a more comprehensive teaching and research program in the Division. Recruitment is the most important priority.

g) Publications:
-Sinusitis: How to Prevent Recurrences: Small, P. Allergy & Asthma, fall/winter 2005: pg 15-18

Sincerely,

Peter Small, M.D.
